

# ☑ Antibodies that keep you moving forward

## Recombinant antibodies that work 1<sup>st</sup> time

- ☑ Unrivaled specificity, with over 4,000 knock-out validated
- ☑ Consistent results from batch to batch
- ☑ Reliable and scalable long-term supply
- ☑ Improved sensitivity

## Antibodies that keep you going

With over 32,000 to choose from, including recombinant multiconals and conjugated and carrier-free formulations, our recombinantly manufactured precision antibodies can get you there faster.

# ✓ Antibodies you can rely on

Our high-performance antibodies are manufactured using recombinant technology and undergo industry-leading validation.

★★★★★ Excellent

**Ab291094. Recombinant anti-ST2 antibody (EPR23264-147] (BSA and Azide free).**

Immunohistochemistry (Formalin/PFA-fixed paraffin embedded section) of human spleen

**Fluorescence multiplex IHC of normal human tonsil tissue (formalin-fixed paraffin-embedded section).**

Merged staining of ab237728 (orange), ab237726 (green), ab192847 (yellow), ab16669 (red), ab16667 (light blue), ab7753 (grey)
